

DOES DISEASE START IN THE GUT?

If you suffer from bloating, IBS, acid reflux, candida or have been diagnosed with an inflammatory bowel disease, the root cause likely lies in the gut.

But did you know that depression, autoimmune conditions, chronic pain and skin disorders like eczema and psoriasis are also linked to the gut?

Come join the Gut Health Seminar presented by Josephine Ng, Functional Medicine Practitioner and Nutritional Therapist.

**20 May 2017, 12noon till 3pm at
Dr Lauren Bramley and Partners, Hong Kong**

The underlying causes of different gastrointestinal disorders and other GI-related health issues will be looked into along with the role of gut bacteria. Come and learn about advanced testing and how you can manage such conditions through diet, safe supplementations and lifestyle changes.

Cost per person HK\$950. Limited seats.

To book please call 28776068 or email christine.luke@laurenbramleymd.com

Light food and refreshments will be provided.
